

Blue Fill 4036 is a very rapid set, flexible, low viscosity urethane/urea specifically designed for sealing and filling in voids. Blue Fill cures to a flexible, fuel resistant material. Its low viscosity makes it a great boot filling compound.

FEATURES & BENEFITS

- Fuel Resistant
- Seals against fuel spills
- Keeps fuel out of joints and cracks
- Remains flexible
- Bonds to fiberglass, steel, asphalt, and concrete
- Rapid applications & set times
- “Drive-over” in 30 - 45 minutes
- Produces flexible repair quickly
- Self-leveling

General Characteristics

Tack Free	15 Minutes
Pot Life	3-4 Minutes
Tensile Strength ASTM D412	2300
Hardness ASTM D2240	40-45A
Shelf Life	1 Year
Mix Ratio	1:1

Part Number	Description	List Price
BFILL4036	Blue Fill 4036 Urethane Filler Kit – 20 oz. (Includes 1 Static Mixer) Used with gun DBLEGUN & DBLEGUNA	\$ 69
DBLEGUN	Manual Dispensing Gun (Works with BBND801 & BFILL4036 Kits) Used with BBND801 & BFILL4036	\$ 189
DBLEGUNA	Pneumatic Dispensing Gun (Works with BBND801 & BFILL4036 Kits) Used with BBND801 & BFILL4036	\$ 613
