

Blue Seal Glue

Blue Seal Glue is a quick drying proprietary chemical adhesive made for the installation of Blueline's range of Pellethane Split Repair Boots.

FEATURES & BENEFITS

- Blue Seal Glue is used to bond Blueline Split Pellethane fittings together
- Blue Seal is a mixture of solvent and Pellethane raw materials mixed under controlled conditions for optimum bonding properties
- The glue melts the edges of the split boots and the solvent quickly evaporates to leave a permanent chemical weld

NOTE: ACB005 Blue Seal Glue is considered a Dangerous Good/HAZMAT by the DOT and is subject to additional shipping charges when shipped Next Day, 2nd Day & 3rd Day Air.

Part Number	Description
ACB005	Blue Seal Glue – 4 oz. Kit
