

**Dispensing Guns for Blueline adhesives and sealants.**

**FEATURES & BENEFITS**

- The Pneumatic delivery system is used to easily deliver 10 oz. single tubes of Parasealant 626 or Bostik during installation of Blueline Repair Boots. The gun is operated by compressed air in order to make the dispensing of the sealant easier.
- Manual and Pneumatic Petrol Seal Delivery System - The Petrol-Seal delivery systems quickly and easily dispense Petrol-Seal during the installation of Blueline Fittings. The guns work for both 200 and 400 ml twin tubes. Choose the Pneumatic gun for easier dispensing on large sites with multiple fittings.
