

SBTCIF Split Repair Boots for Total Containment

The SB Series Pellethane Split Repair Boots are used inside the sump to repair Total Containment Bulkheads and Conduit Penetrations. Repair boot threads directly onto existing bulkhead. Fittings can also be used to seal off ducting to allow re-pipe with double wall pipe.

FEATURES & BENEFITS

- Unique threaded fittings for repair of all TCI applications
- Attaches to existing bulkhead to avoid clearance issues.
- Low profile design leaves room for secondary test boot
- Boots are filled for added security
- Boots are split for installation after re-pipe
